Risk Levels	Little to No	ne N	Minor	Moderate	Majo	or	Extreme

- One more day of hot temperatures will bring high to locally very high heat impacts across far northern California, with cooler and more seasonable temperatures returning for many areas beginning Sunday and through much of the coming week
- Monsoon showers and thunderstorms will increase over southern California and the Sierra today, continuing Sunday and Monday while also potentially developing across portions of the Central Valley. Some lingering showers are expected over the Sierra Tuesday through Thursday.
 - Some thunderstorms will likely produce locally heavy rainfall that could lead to flash flooding Saturday through Monday, especially over the Sierra and across southern California
 - A Flood Watch is in effect through late Saturday evening for the western Mojave Desert and southern California mountains and foothills. Additional Flood Watches are possible for Sunday and Monday.
 - Some southern California burn scars may see localized debris or mud flows depending on the location of storms. Scars of most concern for Saturday are the Apple, Bobcat, Dam, El Dorado, Lake, and Ranch 2 fire areas. The Washburn Fire could also see some localized heavier rainfall through Monday.
- Additional scattered showers and thunderstorms are expected to develop across far the northern California mountains and foothills today and Sunday, bringing the potential for dry lightning
 - Lightning strikes combined with ongoing very dry conditions and gusty winds near thunderstorms will bring elevated to even critical fire weather conditions to portions of far northern California today and Sunday
 - Additional periods of elevated fire weather conditions will continue through mid to late week as dry and locally breezy weather returns to many mountain and foothill locations of the state

Saturday Sunday Monday

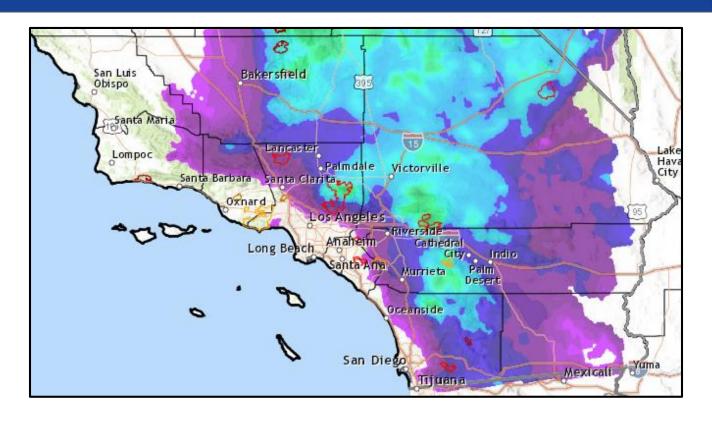

Important Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms will produce locally much higher rainfall amounts.

Precipitation (inches)

Southern CA Burn Scar Precipitation

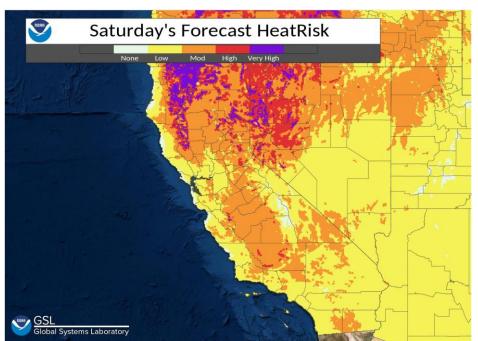

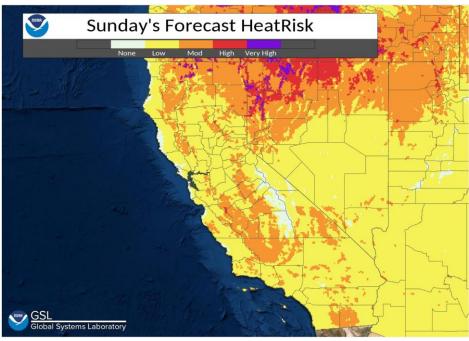

Forecast Precipitation Saturday - Monday

(Note that amounts are an average across the area and that thunderstorms will be capable of producing locally much higher rainfall amounts)

Precipitation (inches)

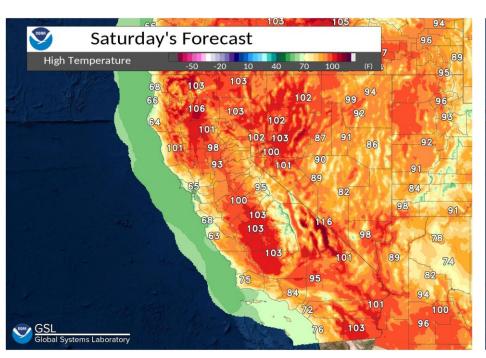

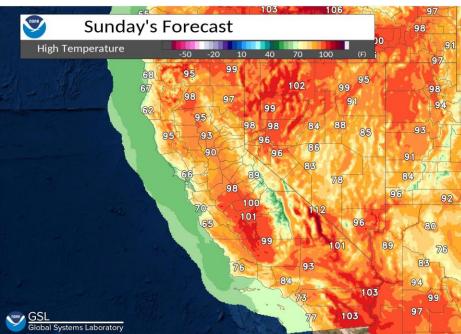

Green	Level 0	No Elevated Risk
Yellow	Level 1	Low Risk for those extremely sensitive to heat, especially those without effective cooling and/or adequate hydration
Orange	Level 2	Moderate Risk for those who are sensitive to heat, especially those without effective cooling and/or adequate hydration

Red	Level 3	High Risk for much of the population, especially those who are heat sensitive and those without effective cooling and/or adequate hydration
Magenta	Level 4	Very High Risk for the entire population due to long duration heat, with little to no relief overnight

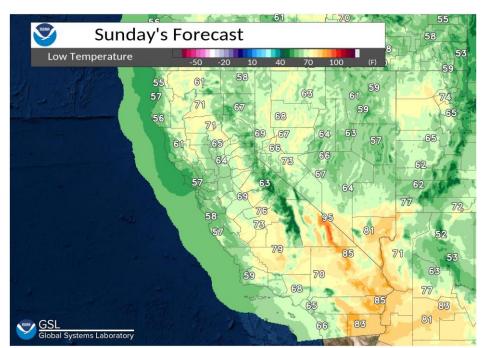

High Temperature Forecast

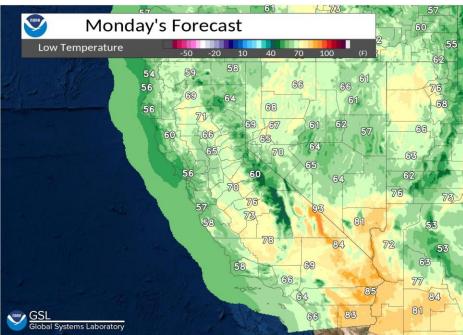

Low Temperature Forecast

Regional Operations Center

Western Region

Saturday, July 30

6-10 Day Outlook (August 4 – August 8)

Temperatures

 Below normal temperatures are favored across southern California, with near to above normal temperatures favored across central and northern California

Precipitation

 Above normal precipitation is favored across eastern and southeastern California, with near normal precipitation favored for the rest of the state

8-14 Day Outlook (August 6 – August 12)

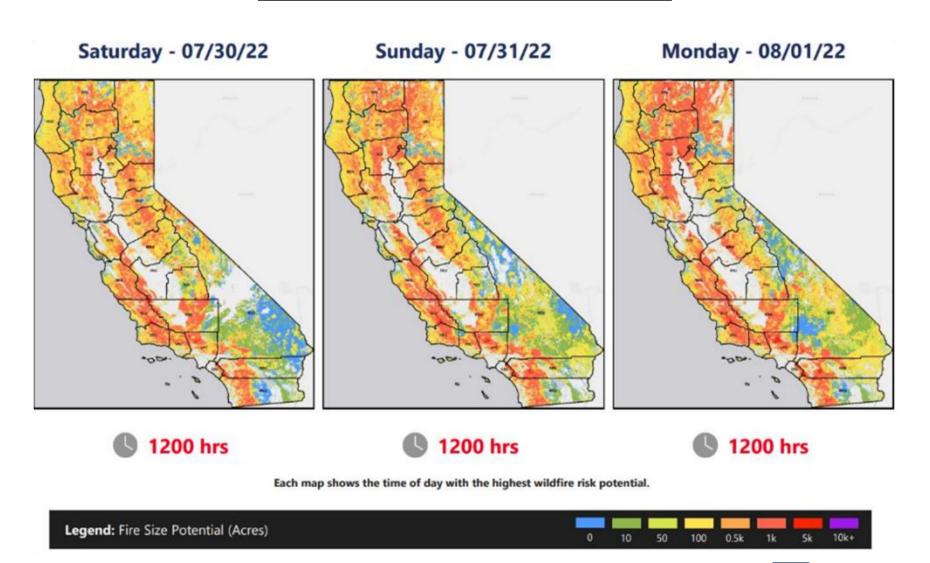

Temperatures

 Above normal temperatures are favored across most of the state, with near or below normal temperatures favored across far southeastern California

Precipitation

 Above normal precipitation is favored across eastern and southeastern California, with near normal precipitation favored for the remainder of the state

SITUATION SUMMARY

Cal OES Activation Status						
State Operations Center Inland Region EOC Coastal Region EOC Southern Region EOC						
Level 1	Level 3	Normal Operations	Normal Operations			

2022 May Monkeypox Virus

The California Department of Public Health (CDPH) has activated the Medical and Health Coordination Center (MHCC) at Level 3 (low) in response to 2022 May Monkeypox Virus Event on 05/24/22; and increased the activation to Level 2 on 07/18/22.

- Hours of Operation: Monday to Friday, 0800 hours to 1700 hours until further notice.
- Media outlets reporting San Francisco has declared a public health emergency for Monkeypox.
- Cal OES Coastal Region Emergency Services Coordinator (ESC) reached out to DEM staff, at this time, the City and County of San Francisco
 has not proclaimed a local health emergency for Monkeypox.

Orbital Debris Reentry, Earth/Western US

On 07/30/22 the California State Warning Center received notification that the Orbital Debris from a Chinese rocket is expected to reenter the Earth's atmosphere and reach the surface at approximately 1100 hours on 07/30/22.

- There no longer appears to pose a threat to California.
- · Cal OES will continue to monitor.

Situation Cell Activation

• The Cal OES Situation Cell is activated to an Enhanced Watch posture for incident reporting for the Northern Region Lightning/McKinney Fires, Siskiyou County.

2022-07-27 Mud Creek Debris Flows, Siskiyou County

On 07/27/22 at 1610 hours, the California State Warning Center (CSWC) was notified by the Cal OES Inland Region Duty Officer (IDO) of an ongoing debris flow in the McCloud area in Siskiyou County impacting Mud Creek and McCloud CSD water supply pipelines.

- The debris flow impacts are increased due to the 2021 Lava Fire burn scar resulting in daily emergency protective measure efforts to clear the debris channel.
- McCloud CSD has shut down their primary water supply pipeline and are utilizing their secondary pipe that is also impacted by the debris flows.
- There are currently no unmet needs or requests for assistance, however, this is potentially a long-term active event.
- 1 Cal OES Inland Region ESC is supporting the County, and the IDO will continue to monitor.

Activations

Siskiyou County EOC is activated at a Level 3 (Duty Officer)

Proclamations

• On 07/27/22, a Local Emergency Proclamation was received from Siskiyou County due to impacts from the Mud Creek Debris Flow in the McCloud area. The county is requesting a a State of Emergency and CDAA.

COVID-19 SUMMARY

Coronavirus Disease 2019 (COVID-19)

On 03/02/20 at 0700 hours, the Cal OES State Operations Center (SOC) activated in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

SMARTER Plan

On 02/17/22, Governor Newsom unveiled the "California SMARTER Plan: The Next Phase of California's COVID-19 Response". The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions.

CDPH Statewide Travel Advisory

For more information: CDC Travel Guidelines

Confirmed California COVID-19 Cases - Per California Department of Public Health Tracking COVID-19 as of 07/27/22 at 1630 hours:

- 9,871,930 total confirmed cases.
 - 119,421 Delta
- 92,595 total deaths.
 - 303 Delta
- Please see the most recent "Situation Report COVID-19" attachment for additional details.

FIRE ACTIVITY

Cal OES INLAND REGION

Washburn, Vegetation Fire, Mariposa County

Location: Hwy. 41 x Mariposa Grove Rd., Fish Camp Jurisdiction: Federal DPA, FRA, Yosemite National Park

Per Cal OES Duty Officers and ICS-209 as of 07/30/22 at 1900 hours:

4,886 acres, brush and timber, 97% contained

- Minimal fire behavior
- Road and trail closures in the area
- CAIIMT 15 in command
- Transfer of command back to local Type 3 Team on 07/30/22 at 1900 hours

Deployments

· 3 Cal OES PSC Technicians assigned.

Missions

 2022-YNP-000038, S-198 and S-199 (Washburn Fire): 1 Cache Sonim Phones (10 phones) and 10 Nighthawk Firstnet Hotspots provided to COML. Cal OES TDO monitoring, PSC Tech will retrieve Friday, 07/29/22.

Oak, Vegetation Fire, Mariposa County

Location: Hwy 140 x Carstens Rd, Midpines

Jurisdiction: State/Federal DPA, SRA/FRA, Madera-Mariposa-Merced Unit, Sierra National Forest

Per Cal OES Duty Officers and ICS-209 as of 07/30/22 at 1900 hours

- 19,244 acres grass, brush and timber, 59% contained
- · Active fire behavior with backing, creeping and smoldering
- Threat to structures and powerlines
- Threat to PG&E infrastructure, tribal lands, community water supply, agricultural and economic assets
- · Road and trail closures in the area
- · CAL FIRE IMT 5 in command
- · Unified Command USFS and CAL FIRE
- Please see attached Situation Report update for Oak Vegetation Fire, Mariposa County

FIRE ACTIVITY

Cal OES INLAND REGION (Continued)

McKinney, Vegetation Fire, Siskiyou County

Location: McKinney Creek Rd. x Walker Rd., 5 mi Southwest of Klamath River

Jurisdiction: Federal DPA, FRA, Klamath National Forest

Per Cal OES Duty Officers and ICS-209 as of 07/30/22 at 1930 hours

- 30,000 acres brush and timber, 0% contained
- **Acreage provided by sensor aircraft**
- Continued threat to structures
- · Threat to critical communication sites and water infrastructure
- Continued threat to private timberlands
- · Highway 96 remains closed
- · Evacuation orders and warnings remain in place
- · Red flag warning in effect over fire area today for dry fuels and lightning
- CAIIMT Team 10 assigned. In-briefing at 1400 hours today.
- Please see attached Situation Report update for McKinney Vegetation Fire, Siskiyou County

Cal OES COASTAL REGION
